

MOESKI CONSULTING WINS ROYAL CITY BUILDERS AWARD FOR TERMINAL PUB RENOVATION

FOR IMMEDIATE RELEASE

Vancouver, BC - October 11, 2010 - Vancouver interior design and restaurant consulting firm, Moeski Consulting has won the Royal City Builders Award for Best Commercial Renovation in the Modern Category for their work on the Terminal Pub in New Westminster, BC. The award was announced during the 39th annual Royal City Builders awards ceremony on October 6, 2010 and adds to mounting accolades for Moeski, as the firm continues to gain popularity and demand in the Vancouver market.

"We are honored to be recognized for our work on the Terminal Pub, and we are thrilled that the citizens of New Westminster enjoy the renovated space," says Karin Bohne, Director and Interior Designer at Moeski Consulting. "We strived to create a hip and modern place for locals and this award confirms we achieved that goal."

The Moeski Consulting director team, comprised of interior designer, Karin Bohne, and restaurant consultant, Brett Turner, were tasked with a complete revitalization of the pub, originally constructed in 1940, to bring it back to its former glory after years of neglect.

Moeski Consulting saw the opportunity to transform the tired and worn space into a buzzing, modern destination that was fresh, yet representative of the Terminal Pub's long history. The 5,200 square-foot pub was stripped of all interior elements to become a blank canvas for Moeski's new design inspired by the West Coast landscape. Sustainability played a critical role in the renovation and sustainable materials were featured throughout.

Updates to the Terminal Pub included:

- New furniture and GREENGAURD® certified materials featuring stone, rough wood and earth tone colored paints throughout the space
- A new 700 square-foot fully operational kitchen
- 32 foot wood top bar
- Floor to ceiling see-through fireplace
- Generous staff room
- Upgraded HVAC & electrical systems
- Zero VOC paints
- Low water consumption fixtures in the washrooms
- GREENGAURD® certified laminate cabinetry that contains 20% recycled content

The Royal City Builders Awards are presented by the New Westminster Chamber of Commerce and the City of New Westminster to honor architects, designers, builders and heritage building owners for their quality and dedication to excellence in design. Nominees win based on votes by City employees and residents.
